

**ELOQUENT DESIGNS AND
BREATHTAKING POLISH**

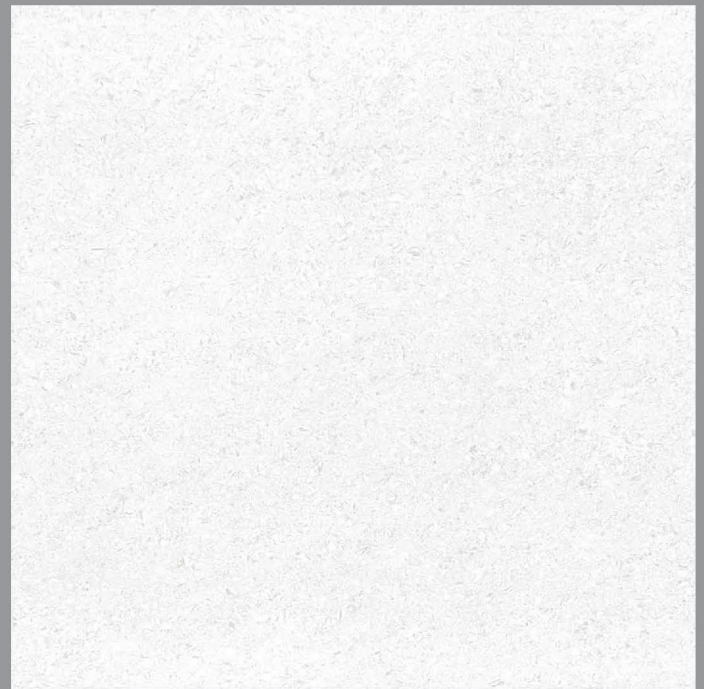

Time is cyclic and immortal, with time we change and change is the only inevitable truth. Our brand new range of tiles have been designed in such a way that it imitates nature mimicry at its best. We've made an unconventional approach towards nature-inspired designs on ceramics to create a segment where we compete with nobody but just us. With our pedagogy to create historically unique creations, we always grow through what we go through in the process of making.

DOUBLE CHARGE VITRIFIED TILE

Double Charge tiles are the timeless versions of surfaces having ingrained solidity and sturdiness. The double vitrification process makes the tile robust and solidifies it till the core. However, we ensure that along with strength, the potent tiles also carry stylish aesthetics that can stand the test of time. The Prada Series is the unique from rest having shimmer all over the surface.
